-

About Us

We are a Tokyo-based, Kathmandu-headquartered research and consulting firm dedicated to helping businesses uncover valuable insights about their markets, competitors, customers, and growth opportunities. Our work combines deep market investigations, strategic interviews, data analysis, and business intelligence to support informed decision-making.

If you enjoy critical thinking, solving complex problems, conducting meaningful research, and working collaboratively in a dynamic environment, we would love to hear from you.

Position Overview

We are seeking a highly analytical and intellectually curious **Business Research Associate** who can transform information into actionable business insights.

This is not a routine data-entry position. The role requires structured thinking, logical problem-solving, and the ability to analyze complex information from multiple sources. Successful candidates will contribute directly to business research projects that influence strategic decisions for clients and internal stakeholders.

If you enjoy investigating industries, evaluating business opportunities, and presenting findings in a clear and compelling manner, this role offers an excellent platform for professional growth.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.

Key Responsibilities

- Conduct comprehensive market and industry research across local and international markets.
- Analyze competitors, market trends, customer behavior, and emerging business opportunities.
- Gather information from multiple credible sources and validate data for accuracy and reliability.
- Convert raw data and research findings into clear, structured, and actionable insights.
- Support internal teams with research-driven recommendations for strategic decision-making.
- Prepare reports, presentations, summaries, and analytical documents.
- Identify key business risks, opportunities, and market developments.
- Present research findings in a concise and understandable format.

Qualifications

Required

- Strong proficiency in GMAT-style logical reasoning and analytical problem-solving.
- Excellent critical thinking and structured communication skills.
- Ability to distinguish relevant information from irrelevant or misleading data.
- Good working knowledge of Microsoft Excel and/or Google Sheets.
- Strong written and verbal communication skills in English.
- Attention to detail and commitment to delivering high-quality work.

Preferred (Not Mandatory)

- Academic background in Business Administration, Finance, Economics, Management, or related disciplines.
- Internship or project experience involving research, analysis, consulting, or strategy.
- Familiarity with business reports, presentations, case studies, or market research methodologies.
- Experience working with large datasets and analytical frameworks.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.

What We Offer

- Collaborative and supportive team environment.
- Exposure to diverse industries and international research projects.
- Continuous learning opportunities with hands-on mentorship.
- A steep learning curve designed to accelerate professional growth.
- Flexibility for self-paced learning and skill development.
- Competitive compensation package.
- Situational work-from-home options.
- Annual festive bonus.
- Performance-based recognition and career progression opportunities.

Growth Opportunities

We are committed to supporting your long-term professional development.

Employees who demonstrate strong analytical ability, communication skills, ownership, and leadership potential will be considered for:

- Mid-level Research Roles with greater project ownership and responsibility.
- Team Lead Positions involving mentoring and team management responsibilities.
- Client-Facing Roles supporting strategic consulting engagements.
- Performance-based salary increments and annual role reviews.
- Opportunities to contribute to increasingly complex and high-impact business research projects.

How to Apply

Please send your updated resume to:

careers@nsp-nepal.com

Optional (Recommended)

Include a **one-page analysis** of any company, industry, market trend, or business challenge that you find interesting. This allows us to better understand your analytical thinking, research approach, and communication style.

Only shortlisted candidates will be contacted for further assessment and interviews.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.
