About Us

N&S Partners is a Tokyo-based, Kathmandu-headquartered research and consulting firm that helps businesses make informed decisions through rigorous market research, strategic interviews, and data-driven analysis. Our work spans diverse industries and markets, providing clients with actionable insights that support growth and strategic decision-making.

We foster a collaborative, intellectually stimulating environment where curiosity, critical thinking, and continuous learning are highly valued.

Position Overview

We are seeking motivated and intellectually curious individuals to join our team as Business Research Trainees. This role is designed for aspiring researchers who enjoy solving complex problems, analyzing information, and uncovering meaningful insights from data.

As a trainee, you will gain hands-on experience in market research, business analysis, and consulting projects while working closely with experienced researchers and industry professionals.

If you are passionate about understanding industries, businesses, and consumer behavior, and are eager to build a career in research and consulting, this opportunity is for you.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.

Key Responsibilities

- Conduct secondary research and gather information from credible sources.
- Analyze qualitative and quantitative information to identify trends, patterns, and business insights.
- Research industries, markets, companies, and consumer behavior across local and international markets.
- Prepare structured reports, presentations, and client deliverables.
- Validate and cross-check information to ensure research accuracy and reliability.
- Present research findings and recommendations to the Research & Consulting team.
- Contribute ideas and perspectives to support strategic decision-making.

Candidate Profile

Required Qualifications

- Completed Bachelor's or Master's degree in Business or a related discipline from a recognized university.
- Experience conducting academic research, thesis work, or research-based projects.
- Strong logical reasoning, analytical thinking, and problem-solving abilities.
- Excellent written and verbal communication skills in English.
- Strong attention to detail and commitment to producing high-quality work.
- Ability to work effectively both independently and within a team.
- Demonstrated commitment to continuous learning and professional development.

Preferred Qualifications

- Academic background in Finance, Accounting, Management, Mathematics, Economics, Statistics, Physics, or related analytical fields.
- Comfort working with numbers, data, and analytical tasks.
- Interest in business strategy, market intelligence, and consulting.
- Global mindset with a proactive approach to learning.
- Self-motivated, ambitious, and driven by challenges.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.

What You Will Gain

- Direct exposure to real-world business research and consulting projects.
- Mentorship from experienced professionals from Japan, Nepal, and international markets.
- Opportunity to develop analytical, research, communication, and problem-solving skills.
- Collaborative and supportive work environment.
- Five-day work week promoting healthy work-life balance.
- Equal opportunity and inclusive workplace culture.

Career Growth Opportunity

High-performing trainees will be considered for progression into a full-time **Junior Researcher** position upon successful completion of the traineeship.

Successful candidates may receive:

- Attractive full-time salary package.
- Increased project ownership and responsibilities.
- Ongoing mentorship and professional development opportunities.
- Clear career progression within the Research & Consulting team.

Application Process

Interested candidates are encouraged to send their updated CV to:

careers@nsp-nepal.com

Please mention “**Business Research Trainee**” in the subject line of your email.

Optional (Recommended)

To showcase your analytical thinking, you may include a **one-page analysis of any company, industry, or market trend** that interests you.

Only shortlisted candidates will be contacted for further assessment and interviews.

The duties, responsibilities, and benefits described in this job posting may be revised by N&S Partners as business needs evolve. Selection and employment decisions will be based on qualifications, performance, organizational requirements, and applicable company policies.
